

**GHS basic/intermediate training course @ NDAR, Antibes, 10-12 January 2017**

Dear all,

A 3-day GHS training course will be held in our offices on 10-12 January 2017

The instructor is Stéphane DARDEL, Naval Architect. The course will be held in English. French and Italian will be supported.

The materials covered include:

- ✓ Geometry file: import and creation, Model Converter and Part Maker modules
- ✓ GHS command language
- ✓ Run files, macros and variables
- ✓ Condition graphics
- ✓ Load editor
- ✓ Stability criteria, intact and damaged stability
- ✓ Heeling moment
- ✓ Tank types and free surfaces
- ✓ Maximum VCG calculations
- ✓ Longitudinal strength
- ✓ Multibody

Course fees are 650€ / day, lunch will be provided. Advance payment of the fee is required to confirm registration. A minimum of 2 registered attendees is requested to maintain the course.

**10% DISCOUNT FOR EARLY BIRD REGISTRATION**

Register before 30 December 2016 and benefit of a 10% discount on the course fees.

A GHS license will be provided during the course free of charge, and participants should bring their laptops (any modern laptop or netbook will run GHS comfortably in the context of the training course).

Advance payment of the fee is required to confirm registration.

Registration will be accepted on a first come first served basis, places are limited.

For more information or logistics questions, please contact [ndar@ndar.com](mailto:ndar@ndar.com).

Looking forward to seeing you at the course,

Stéphane DARDEL
